

**Center for Cognitive Medicine
University of Illinois at Chicago**

Research Study:

Affective systems and deficits in individuals with psychopathology and controls

Principal Investigator:

Ellen S. Herbener, Ph.D., Center for Cognitive Medicine, University of Illinois at Chicago, Department of Psychiatry

We are currently recruiting individuals with
Schizophrenia Spectrum Disorders or Major Depression
for a research study investigating psychiatric disorders

To qualify, you must be between 18 and 65 years of age

AND

you must have

no history of neurologic disorders, seizures, major head injuries, or problems with drugs or alcohol

Eligible persons will be asked to complete

- Clinical interview assessing psychological functioning (1-2 hours)
- Psychological tests measuring verbal and spatial abilities, memory capacities, and emotional responses (4 hours)
- Possible brain imaging studies using fMRI

The testing will be conducted at the Center for Cognitive Medicine, 912 South Wood Street.

Your participation is voluntary and we will offer you compensation to cover your time. If you are interested in learning more about this study and how to become a research subject, please contact Ms. Lindsay Termini (312) 413-1867 or e-mail: ltermini@psych.uic.edu . She will provide you with further information and discuss this study in detail.

STARTS APPROVAL EXPIRES
